WORK EXPERIENCE

Umasoft Inc - Web developer
2018–present
* As a part time full stack web developer at Umasoft Inc, I oversaw the in and out of all web applications brought forth into the company.
* Ensured that every application built by Umasoft, not only display high level of functionality and standard, but also make sure the user interfaces stand out from the crowd.
* Designed, developed, and managed the company website.
* Ensured that every application meet up with deadline to prompt optimum Client satisfaction.

LINCOLN CITY COMPUTER COLLEGE - Computer tutor
2016–2018
My responsibility as a computer tutor in Lincoln city computer college entails leveraging the available tools and infrastructure in dishing out adequate and updated lectures HTML, CSS, JAVASCRIPT, PHP and MYSQL to students studying web development.
